FINAL RESOLUTION ESTABLISHING GOOSE PRAIRIE WMA ENHANCEMENT "PROJECT #45" (Project #45)

A duly noticed meeting was held on August 14, 2019, at the Wild Rice Watershed District (WRWD) office at 11 5th Ave. East in Ada, MN at 10:00 a.m. for consideration by the WRWD Board of Managers (WRWD Board) of the establishment of the Goose Prairie WMA Enhancement Project #45. Present at the hearing were a quorum of the WRWD Board including: Greg Holmvik; Curt Johannsen; Duane Erickson; Dean Spaeth; Ray Hanson; Mike Christenson; and Mark Harless. Also present were: Jerry Bents, P.E., WRWD's engineer; Elroy Hanson, WRWD's attorney; Kevin Ruud, WRWD's administrator; other WRWD staff and members of the public.

DISCUSSION was had by WRWD Board regarding the WRWD Board's consideration of the history and related past actions regarding Project #45, including the following:

- a. The Resolution of the WRWD Board Initiating Goose Prairie WMA Enhancement Project #45 under Minn. Stat. §103*D*. 601;
- b. The WRWD Board considered the Preliminary Resolution Report prepared by the WRWD's engineer, Jerry Bents dated February 13, 2018, the Engineer's Report of January 30, 2019, and the Engineer's Report /Technical Memorandum dated April 26, 2019, regarding the Engineer's Findings under Minn. Stat. §103*E*. 227 regarding CD #18;
- c. The WRWD Board considered written and oral testimony presented at the Preliminary Resolution Hearing on April 11, 2018 held at the West Central Ag Services Building in Ulen, Minnesota (said hearing included a presentation by the WRWD's engineer, Jerry Bents, regarding the proposed Project #45 and questions/comments by the public);
- d. Advisory comments from BWSR of March 22, 2019 stating "The Engineer's Report presents what appears to be a quite thorough analysis of the project site and design of the proposed plan."
- e. Advisory comments from the DNR of March 27, 20919 stating "1. The Survey Report appears to be adequate from a DNR viewpoint; however we have recommendations and comments for the final project plans. 2. The project appears to be a practicable plan and is approved. 3. As noted in the project plans, DNR agrees further said survey is needed during construction through an inspection trench observed by the Geotechnical Engineer.";
- f. As Clay County Ditch #18 (CD#18) would be impacted by Project #45, a separate proceeding under Minn. Stat. §103*E*. 227 allowing the impounding, rerouting, and diverting of waters of CD #18 is necessary;
- g. To comply with §103*E*.227, the WRWD Board filed a petition in accordance therewith to allow the necessary impounding, rerouting, and diversion of waters of CD #18, appointed an engineer, Jerry Bents, to prepare a report regarding the effect of proposed Project #45 on CD #18, obtained a report from Mr. Bents dated April 26, 2019, and held a duly noticed hearing on said report held simultaneously with the hearing for the Establishment of Project #45, with the WRWD Board signing an Order granting said petition.

September 11, 2019, Regular Meeting Approved Minutes Page 9 of 13

FURTHER DISCUSSION was had that this project shall be known as the Goose Prairie WMA Enhancement Project – Project #45;

FURTHER DISCUSSION was had that the estimated costs for Project #45 will be split based on the following breakdown: 40% Lessard-Sams Outdoor Heritage Council (\$600,000); 17% Red River Watershed Management Board (\$250,000); 10% Wild Rice Watershed District (\$150,000); 13% State of Minnesota – Flood Hazard Mitigation Program (\$200,000); and 20% Other Outside Habitat Programs – DNR/USFWS/Other TBD (\$300,000).

FURTHER DISCUSSION was had that the Location of the proposed Project #45 is located just northeast of Hitterdal, MN in Goose Prairie Township of Clay County. Project #45 will retain floodwaters that flow into the Red River of the North by way of Clay Co. Ditch #18 (CD #18), South Branch Wild Rice River, and the Wild Rice River. The control structure for Project #45 will be located approximately 2 miles northeast of Hitterdal, MN along 115th Ave. N. Other modifications to CD 18 included in Project #45 are a 115th Ave. N. road raise, select areas of sediment removal, realignment of CD #18 from Goose Prairie Marsh to the control structure, and a realignment of CD #18 around an existing partially drained wetland area.

FURTHER DISCUSSION was had that the primary purpose of Project #45 is to improve wildlife habitat conditions in Goose Prairie Marsh while also reducing the risk of downstream local and regional flooding damage and maintaining an adequate outlet for upstream landowners. Project #45 will provide the ability to manage water levels on Goose Prairie Marsh to improve wetland wildlife habitat and water quality. A water control structure will be built to control water levels for Goose Prairie Marsh following a water level management plan. The operation of the water control structure will be based on a future operation and maintenance agreement to be approved by both the Minnesota DNR and the WRWD. The operation and maintenance plan will attempt to balance wildlife management goals with flood management goals.

FURTHER DISCUSSION was had that Project #45 is feasible, promotes the public interest and welfare and is practicable and is in conformity with the WRWD's Watershed Management Plan.

NOW, THEREFORE, based on the above DISCUSSION, and upon motion made by Raymond Hanson, seconded by Curt Johannsen, and unanimously carried, be it RESOLVED:

- 1. "Goose Prairie WMA Enhancement Project Project #45," said Project being described in the above Discussion, is hereby established per Minn. Stat. §103D. 601 and is approved by the WRWD Board.
- 2. Project #45 promotes the public interest and welfare and is practicable and in conformity with the WRWD's Watershed Management Plan.

Dated:	
	Greg Holmvik, WRWD Chairman
Dated:	
	Curt Johannson, WRWD Secretary

3. Said Project #45 shall hereafter continue as provided by applicable law.
